ALKA KLEEN SAF

A CONCENTRATED LIQUID BLEND OF ALKALINE MATERIALS, SURFACTANTS, AND EMULSIFIERS. THIS PRODUCT WAS FORMULATED SPECIFICALLY TO COMBINE THREE IMPORTANT FEATURES FOR MARINE CARGO TANK CLEANING.

- * Safe to use on special tank coatings (zinc, etc.).
- * Direct injection into the washing system.
- * Economical dilution rate.

APPLICATION

Enviro-Tech Alka Kleen SAF is diluted with fresh or salt water. The method of application is to inject into the washing system at a pre-determined dosage rate. A solution can also be made by pumping or dumping Alka Kleen SAF into a solution tank followed by high pressure, high volume hot water to ensure mixing. After mixing, the recirculating method of cleaning is used. Recirculate or inject Alka Kleen SAF at a 5% solution level in fresh water after tanks have been stripped and rinsed. It can also be applied neat in spray followed by a rinse.

PROPERTIES

Enviro-Tech Alka Kleen SAF is a non-caustic alkaline product formulated to remove stubborn deposits which result from the carriage of fatty acids, animal fats, vegetable and mineral oils. Alka Kleen SAF is safe to use as directed because it has no flash point and does not freeze above temperatures of 0 deg F. Other special features of Alka Kleen SAF are:

1. Non-corrosive to metals (contains special corrosion inhibitors)
2. Odorless
3. Excellent sanitizing action

NATURE OF SPECIAL RISKS AND SAFETY ADVICE

FOR MARINE/INDUSTRIAL USE ONLY!
DO NOT TAKE INTERNALLY!
KEEP OUT OF REACH OF CHILDREN!
